HDDS Footprints Legend:

We highlight new image footprints as either **red** or **blue**, where **red** reflects the newest footprints from the last 48 hours and **blue** reflects footprints from the last 7 days.

 New footprints from the past 48 hours

 Footprints from the last 7 days

Platform: **SENTINEL** scenes from the last 48 hours (in red) and from the last 7 days (in blue)

Platform: **LANDSAT** scenes from the last 48 hours (in red) and from the last 7 days (in blue)

Platform: **REPORTS** scenes from the last 48 hours (in red) and from the last 7 days (in blue)

HDDS Restricted

If you have not registered on either EarthExplorer or HDDS, click the register button in the top right corner of the screen and go thru the registration process. Once registered, you will have access to EarthExplorer and HDDS download capabilities. The first time you attempt to download restricted imagery, you will need to fill out an access request form for that event. Click on 'Access' (upper right of HDDS screen), then select 'To request access to restricted data click here'. Select event from menu. Once granted access, you can download restricted imagery. (note: in most cases the restricted area contains licensed imagery, not all requests can be granted.)

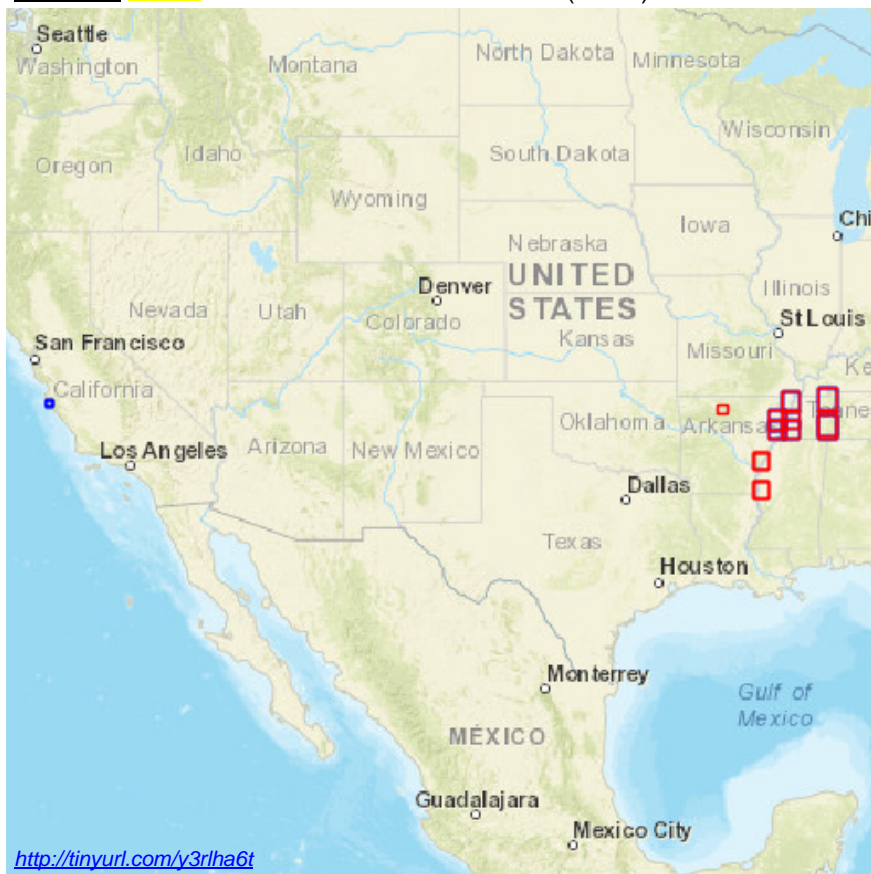

Request access:

https://hddsexplorer.usgs.gov/access/request?event=201902_Flood_US

Platform: **TERRASARX** scenes from the last 48 hours (in red) and from the last 7 days (in blue)

Platform: **SPOT** scenes from the last 48 hours (in red) and from the last 7 days (in blue)

Platform: **WORLDVIEW** scenes from the last 48 hours (in red) and from the last 7 days (in blue)

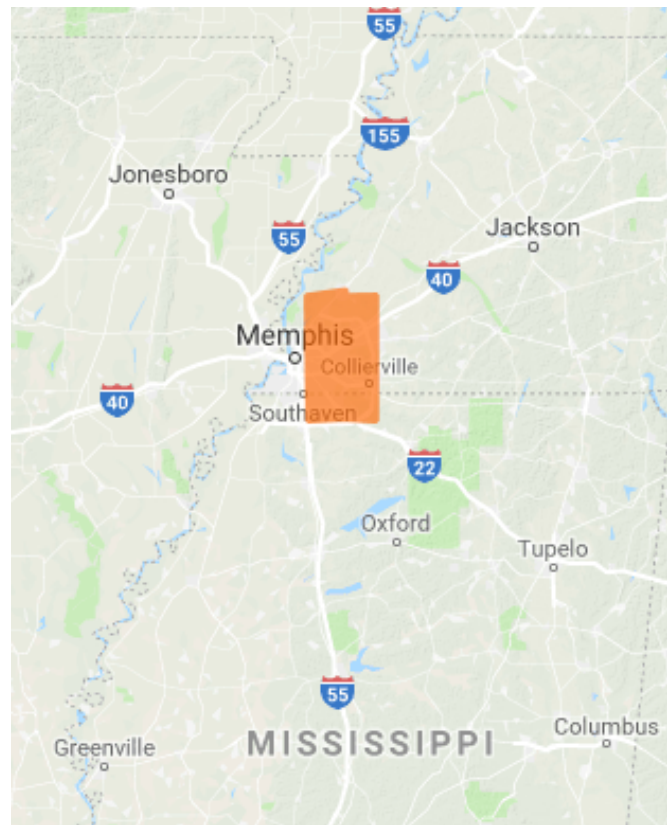

End HDDS

Digital Globe Imagery

Digital Globe imagery is available orthorectified in the NGA funded EnhancedView Web Service. Users with .gov or .mil emails can self-register. <https://evwhs.digitalglobe.com/myDigitalGlobe/>

Last 72 Hours
